01 / START HERE

Play and win the seeded game

This package contains all three simplified Java stages and their connected desktop GUIs in one parent folder. Each stage has its game and GUI source together in its own src folder. Your supplied RestaurantRush_Reviewed.zip is preserved as a reference copy.

Start on Windows: extract the entire ZIP, then double-click PLAY_STAGE_1.bat, PLAY_STAGE_2.bat or PLAY_STAGE_3.bat. These launch the prebuilt GUI JARs. Java 11 or newer with desktop support must be installed. To compile changes, open the stage folder and use run.bat with a full JDK 11+.

Use the verified default: leave Original base choices unticked, enter **42** in Seed and click **New game**. Check that the displayed active seed is 42. Editing the field alone does not change a running game.

Two ways to learn: click Victory demo: next turn eighteen times to see the sample strategy, or use the manual tables in this guide. Each demo click advances one whole turn. Manual play teaches how each staff task changes the result.

Stage / seed 42	Paid	Revenue	Paid average	Ending
1	5	$63.00	74.40	Victory
2	4	$62.10	70.25	Victory
3	5	$66.48	88.80	Victory

Victory requires all three targets after turn 18: at least 4 paid customers, at least $45.00 revenue, and paid satisfaction average at least 60. A served customer is not necessarily paid. Revenue and average include only paid customers. The game never ends early.

For the seed-42 walkthrough, Stage 3 Happy Hour is activated before starting turn 4. Do not activate it on an earlier turn. Stages 1 and 2 have no Host or Happy Hour controls.

02 / MANUAL CONTROLS

How to follow a turn-table row

1. Before Start turn, apply the Happy Hour instruction if this is Stage 3. A dash means no new activation. Once used, it cannot be activated again.

2. Click Start turn. The scheduled customer arrives and the phase label tells you which staff role is active.

3. In Stage 3, perform the Host column first. In Stages 1 and 2, begin with the Waiter column.

4. Choose the Task dropdown value and the stated customer. Click Perform action once for that role. Follow the Chef column next. Customers choose their own food when the Waiter takes their order.

5. When the phase says Finish turn, select Finish turn and click the action button. Eating, payment, waiting loss and Happy Hour expiry happen automatically. Compare the table's cumulative paid, revenue and average checkpoints.

Guide entry	GUI action
Seat C2	Task: Seat; Customer: C2; Perform action
Order C2	Task: Take order; Customer: C2; Perform action
Serve C2	Task: Serve; Customer: C2; Perform action
Cook C2	Task: Cook; Customer: C2; Perform action
Wait	Task: Wait; Perform action; no customer needed

Timing: the Waiter acts before the Chef. A dish made READY this turn can only be served on a later turn. If served on turn t, the customer becomes READY_TO_PAY on t+1 and can pay on t+2. A table stays occupied until payment or departure.

If a button is disabled: check the active phase and selected task. If no customer qualifies, choose another task or Wait. If an error says both tables are occupied, the failed action has not used the staff task; choose Wait or another legal task. Never skip Finish turn.

These tables assume a fresh game with the exact listed seed, original-base mode off, and no mixed demo/manual actions. If your checkpoint differs, restart with the same seed and follow from turn 1.

03 / VERIFIED WALKTHROUGH

Stage 1 - seed 42

Fresh game, seed **42**, original-base mode **off**. There is no Host. Perform the Waiter action first, then Chef.

Turn	Waiter	Chef	Paid	Revenue	Average
1	Seat C1	Wait	0	$0.00	N/A
2	Order C1	Cook C1	0	$0.00	N/A
3	Wait	Cook C1	0	$0.00	N/A
4	Serve C1	Wait	0	$0.00	N/A
5	Seat C2	Wait	0	$0.00	N/A
6	Order C2	Cook C2	1	$18.00	76.00
7	Serve C2	Wait	1	$18.00	76.00
8	Seat C3	Wait	1	$18.00	76.00
9	Order C3	Cook C3	2	$27.00	76.00
10	Serve C3	Wait	2	$27.00	76.00
11	Seat C4	Wait	2	$27.00	76.00
12	Order C4	Cook C4	3	$36.00	76.00
13	Seat C5	Cook C4	3	$36.00	76.00
14	Serve C4	Wait	3	$36.00	76.00
15	Order C5	Cook C5	3	$36.00	76.00
16	Serve C5	Wait	4	$54.00	74.00
17	Seat C6	Wait	4	$54.00	74.00
18	Order C6	Cook C6	5	$63.00	74.40

Expected: Victory. Paid 5; revenue $63.00; paid satisfaction 74.40. Always complete turn 18, even if the targets were met earlier.

Each row was replayed through actual Swing buttons and dropdowns, with paid/revenue/satisfaction checked at every turn. Matching CLI replay inputs are included in this stage's replays folder.

04 / VERIFIED WALKTHROUGH

Stage 2 - seed 42

Fresh game, seed **42**, original-base mode **off**. There is no Host. Perform the Waiter action first, then Chef.

Turn	Waiter	Chef	Paid	Revenue	Average
1	Seat C1	Wait	0	$0.00	N/A
2	Order C1	Cook C1	0	$0.00	N/A
3	Wait	Cook C1	0	$0.00	N/A
4	Serve C1	Wait	0	$0.00	N/A
5	Seat C2	Wait	0	$0.00	N/A
6	Order C2	Cook C2	1	$18.00	76.00
7	Serve C2	Wait	1	$18.00	76.00
8	Seat C3	Wait	1	$18.00	76.00
9	Order C3	Cook C3	2	$26.10	80.50
10	Seat C4	Cook C3	2	$26.10	80.50
11	Serve C3	Wait	2	$26.10	80.50
12	Order C4	Cook C4	2	$26.10	80.50
13	Wait	Cook C4	3	$44.10	71.00
14	Serve C4	Wait	3	$44.10	71.00
15	Seat C5	Wait	3	$44.10	71.00
16	Order C5	Cook C5	4	$62.10	70.25
17	Serve C5	Wait	4	$62.10	70.25
18	Seat C6	Wait	4	$62.10	70.25

Expected: Victory. Paid 4; revenue $62.10; paid satisfaction 70.25. Always complete turn 18, even if the targets were met earlier.

Each row was replayed through actual Swing buttons and dropdowns, with paid/revenue/satisfaction checked at every turn. Matching CLI replay inputs are included in this stage's replays folder.

05 / VERIFIED WALKTHROUGH

Stage 3 - seed 42

Fresh game, seed **42**, original-base mode **off**. Tick Happy Hour only before starting turn 4. Perform Host first, then Waiter and Chef.

Turn	Happy Hour	Host	Waiter	Chef	Paid	Revenue	Average
1	-	Seat C1	Order C1	Cook C1	0	$0.00	N/A
2	-	Wait	Wait	Cook C1	0	$0.00	N/A
3	-	Wait	Serve C1	Wait	0	$0.00	N/A
4	Activate	Seat C2	Order C2	Cook C2	0	$0.00	N/A
5	-	Wait	Serve C2	Wait	1	$18.00	84.00
6	-	Wait	Wait	Wait	1	$18.00	84.00
7	-	Seat C3	Order C3	Cook C3	2	$24.48	92.00
8	-	Wait	Wait	Cook C3	2	$24.48	92.00
9	-	Wait	Serve C3	Wait	2	$24.48	92.00
10	-	Seat C4	Order C4	Cook C4	2	$24.48	92.00
11	-	Wait	Serve C4	Wait	3	$42.48	86.67
12	-	Wait	Wait	Wait	3	$42.48	86.67
13	-	Seat C5	Order C5	Cook C5	4	$51.48	88.00
14	-	Wait	Serve C5	Wait	4	$51.48	88.00
15	-	Wait	Wait	Wait	4	$51.48	88.00
16	-	Seat C6	Order C6	Cook C6	5	$66.48	88.80
17	-	Wait	Wait	Cook C6	5	$66.48	88.80
18	-	Wait	Wait	Cook C6	5	$66.48	88.80

Expected: Victory. Paid 5; revenue $66.48; paid satisfaction 88.80. Always complete turn 18, even if the targets were met earlier.

Each row was replayed through actual Swing buttons and dropdowns, with paid/revenue/satisfaction checked at every turn. Matching CLI replay inputs are included in this stage's replays folder.

06 / VERIFIED WALKTHROUGH

Stage 1 - seed 43

Fresh game, seed **43**, original-base mode **off**. There is no Host. Perform the Waiter action first, then Chef.

Turn	Waiter	Chef	Paid	Revenue	Average
1	Seat C1	Wait	0	$0.00	N/A
2	Order C1	Cook C1	0	$0.00	N/A
3	Serve C1	Wait	0	$0.00	N/A
4	Seat C2	Wait	0	$0.00	N/A
5	Order C2	Cook C2	1	$9.00	84.00
6	Wait	Cook C2	1	$9.00	84.00
7	Serve C2	Wait	1	$9.00	84.00
8	Seat C3	Wait	1	$9.00	84.00
9	Order C3	Cook C3	2	$27.00	80.00
10	Serve C3	Wait	2	$27.00	80.00
11	Seat C4	Wait	2	$27.00	80.00
12	Order C4	Cook C4	3	$42.00	78.67
13	Seat C5	Cook C4	3	$42.00	78.67
14	Serve C4	Wait	3	$42.00	78.67
15	Order C5	Cook C5	3	$42.00	78.67
16	Wait	Cook C5	4	$60.00	76.00
17	Serve C5	Wait	4	$60.00	76.00
18	Seat C6	Wait	4	$60.00	76.00

Expected: Victory. Paid 4; revenue $60.00; paid satisfaction 76.00. Always complete turn 18, even if the targets were met earlier.

Each row was replayed through actual Swing buttons and dropdowns, with paid/revenue/satisfaction checked at every turn. Matching CLI replay inputs are included in this stage's replays folder.

07 / VERIFIED WALKTHROUGH

Stage 2 - seed 43

Fresh game, seed **43**, original-base mode **off**. There is no Host. Perform the Waiter action first, then Chef.

Turn	Waiter	Chef	Paid	Revenue	Average
1	Seat C1	Wait	0	$0.00	N/A
2	Order C1	Cook C1	0	$0.00	N/A
3	Serve C1	Wait	0	$0.00	N/A
4	Seat C2	Wait	0	$0.00	N/A
5	Order C2	Cook C2	1	$9.00	84.00
6	Wait	Cook C2	1	$9.00	84.00
7	Serve C2	Wait	1	$9.00	84.00
8	Seat C3	Wait	1	$9.00	84.00
9	Order C3	Cook C3	2	$25.20	84.50
10	Seat C4	Cook C3	2	$25.20	84.50
11	Serve C3	Wait	2	$25.20	84.50
12	Order C4	Cook C4	2	$25.20	84.50
13	Wait	Cook C4	3	$43.20	73.67
14	Serve C4	Wait	3	$43.20	73.67
15	Seat C5	Wait	3	$43.20	73.67
16	Order C5	Cook C5	4	$61.20	72.25
17	Seat C6	Cook C5	4	$61.20	72.25
18	Serve C5	Wait	4	$61.20	72.25

Expected: Victory. Paid 4; revenue $61.20; paid satisfaction 72.25. Always complete turn 18, even if the targets were met earlier.

Each row was replayed through actual Swing buttons and dropdowns, with paid/revenue/satisfaction checked at every turn. Matching CLI replay inputs are included in this stage's replays folder.

08 / VERIFIED WALKTHROUGH

Stage 3 - seed 43

Fresh game, seed **43**, original-base mode **off**. Tick Happy Hour only before starting turn 4. Perform Host first, then Waiter and Chef.

Turn	Happy Hour	Host	Waiter	Chef	Paid	Revenue	Average
1	-	Seat C1	Order C1	Cook C1	0	$0.00	N/A
2	-	Wait	Wait	Cook C1	0	$0.00	N/A
3	-	Wait	Serve C1	Wait	0	$0.00	N/A
4	Activate	Seat C2	Order C2	Cook C2	0	$0.00	N/A
5	-	Wait	Serve C2	Wait	1	$18.00	84.00
6	-	Wait	Wait	Wait	1	$18.00	84.00
7	-	Seat C3	Order C3	Cook C3	2	$28.80	92.00
8	-	Wait	Wait	Cook C3	2	$28.80	92.00
9	-	Wait	Serve C3	Wait	2	$28.80	92.00
10	-	Seat C4	Order C4	Cook C4	2	$28.80	92.00
11	-	Wait	Wait	Cook C4	3	$46.80	86.67
12	-	Wait	Wait	Cook C4	3	$46.80	86.67
13	-	Seat C5	Serve C4	Wait	3	$46.80	86.67
14	-	Wait	Order C5	Cook C5	3	$46.80	86.67
15	-	Wait	Wait	Cook C5	4	$71.10	84.00
16	-	Seat C6	Order C6	Cook C5	4	$71.10	84.00
17	-	Wait	Serve C5	Cook C6	4	$71.10	84.00
18	-	Wait	Wait	Cook C6	4	$71.10	84.00

Expected: Victory. Paid 4; revenue $71.10; paid satisfaction 84.00. Always complete turn 18, even if the targets were met earlier.

Each row was replayed through actual Swing buttons and dropdowns, with paid/revenue/satisfaction checked at every turn. Matching CLI replay inputs are included in this stage's replays folder.

09 / OTHER SEEDS

Change the game and adapt your strategy

The normal GUI and CLI use the fixed default seed 42. Change the Seed field and click New game, or launch with --seed NUMBER. To change the source default, edit DEFAULT_SEED in each stage's src/GameSettings.java, then rebuild. The prebuilt JAR does not change until it is rebuilt; its seed field and --seed option work immediately.

```
java -jar stage-3/RestaurantRush_GUI.jar --seed 2026
java -jar stage-3/RestaurantRush_CLI.jar --seed 2026 --demo victory
```

What changes: ordinary Regular/VIP menu choices, including Stage 3 combos. The same seed and manager choices reproduce the same game. Different seeds need not give unique menus. Critic always orders Pasta, preserving its distinct preference. Arrivals, tables, staff limits, money rules, satisfaction losses, eating/payment delays and victory targets stay unchanged.

General strategy: in Stage 3, seat the oldest waiting customer with the Host whenever a table is free. For the Waiter, normally serve the oldest READY order, otherwise take the oldest seated customer's order, otherwise seat a waiting customer. The Chef normally advances the oldest PREPARING order. This is the sample strategy used by the tables.

Adapt when the seed changes: inspect food preparation units after ordering. Pasta takes 2 units and a combo 3, so an old table row may no longer be legal. Serve READY meals promptly to stop waiting loss and free tables sooner. Watch the Critic's faster 12-point waiting loss. Remember payment is two turns after serving; do not count unpaid late meals toward victory.

Happy Hour trade-off: Stage 3 recovery can protect waiting satisfaction, but 20% off reduces revenue on new orders. It does not reprice old orders. Time it around actual food orders and satisfaction needs; activation before turn 4 is verified for seeds 42 and 43, not a universal optimum.

The walkthroughs guarantee the demonstrated outcomes for these seeds and exact actions. They are not a promise that the sample strategy wins every seed. A failed seed run may call for different staff priorities or Happy Hour timing. Use the named Defeat demo to compare what happens when staff always wait.

Preserved base mode: tick Original base choices and start a new game to reproduce the original ID-based menu. Old victory.txt/defeat.txt replay files belong to that mode. Do not use a seed-42 walkthrough for an unrelated seed or for original base mode.

10 / CODE AND CHECKS

What was simplified and how it was checked

Application streams/lambdas/method references were replaced with ordinary loops, named search helpers and if statements. Short local names and compact multi-statement lines were expanded. Customer inheritance, staff roles, MenuItem, locked orders and Stage 3 pricing remain intact. The GUI forwards actions to the same simplified stage classes; no separate game-rule implementation is hidden in the interface.

Each stage has src, tests, replays, launch/build/test scripts, a desktop JAR and a CLI JAR in one local folder. No source path points back into the original reference archive. Existing method contracts and original test files are retained. The intentional new variation is seeded ordinary food choice; optional base mode retains the original behaviour.

Stage	Original assertions	Seed assertions	GUI checks
1	291	7,571	67
2	293	7,513	67
3	331	8,031	123

All original tests, new seeded tests and GUI checks passed. Additionally, both 18-turn guides were executed through the GUI in every stage with all checkpoints verified. The matching CLI scripts reproduce the same end-of-turn results as the sample strategy. Replays and logs are included.

Verification environment: Java 21.0.13. Source compiled to Java 11 class format using the available compiler module with -source 11 -target 11. GUI components were exercised and rendered headlessly on Swing's event-dispatch thread. A native Windows window and .bat launch were not executed in this environment; the provided scripts use a full JDK's javac --release 11. A graphical desktop and Java installation are needed on your PC.

The supplied RestaurantRush_Reviewed.zip is copied unchanged under reference/. Existing reports and tags inside it describe the earlier code. If adopting this simplified/seeded GUI for submission, update design diagrams, comparisons and actual Git history to match. This work does not modify GitHub or fabricate prior stage commits.
